

CONTRACT RESEARCH, DEVELOPMENT & MANUFACTURING

- A Contract Research And Development Organization
- Empowering Your Research With Our Services

Pharmaffiliates, with world class state of the art infrastructure & a team of **300+ Personnel** provide a diverse range of **synthetic and analytical research services** tailored to meet the needs of Pharmaceutical and Biotechnology industry.

Bringing expertise built over two decades in research, specializing in the synthesis of complex and difficult to make-compounds

Performing-Principal Development to commercial scale-up and development of innovative and novel organic molecules

To support and accelerate the drug discovery research of Pharma, Biotech companies, API manufacturers, Bulk drug suppliers, Clinical CROs, Research institutes and other allied industries

We offer flexible business models tailored to meet your needs, including **Full-Time Equivalent (FTE)** and **Fee-for-Service (FFS)**

PHARMAFFILIATES OFFERING SERVICES FROM DISCOVERY TO MANUFACTURING

DISCOVERY

- Building Blocks & Scaffolds
- Library Synthesis
- PROTAC Drug Discovery
- Nucleotides and Carbohydrates
- Steroid & Alkaloids
- Beta-Lactones
- Florescent Labeling Molecules
- Stable Isotopes
- Peptide Synthesis
- Impurity Isolation, Elucidation & Characterization

DEVELOPMENT

- Route Scouting and Design
- Process Research & Development
- Analytical Method Development and Validation
- Synthetic Scale-up
- Stabilities Studies
- Deuterium Analogues and Intermediates

MANUFACTURING

- Scale Up and Technology Transfer
- Small-scale Supply of API and Intermediate
- Gram to Kilogram Synthesis, Non-GMP

Pharmaffiliates provides streamlined discovery chemistry services enabling accelerated discovery of drug. With team of extensive proficiency in diverse chemistry specializations and cutting-edge labs, our discovery chemistry services are further enhanced by robust analytical chemistry support and an efficient IT infrastructure.

This integrated approach ensures efficiency and effectiveness throughout the drug discovery process

PARTNER WITH PHARMAFFILIATES FOR COMPREHENSIVE SUPPORT ACROSS SMALL TO LARGE MOLECULE REQUIREMENTS

Experience top-tier technical proficiency and enhanced output through our dedicated team, exclusively committed to serving your unique requirements.

WITH MODERNIZED LABS; EQUIPPED WITH ADVANCED EQUIPMENT & FACILITIES

- Modern Fume Hoods
- High Vacuum Rotary Evaporators
- Flash Chromatography Systems
- Microwave Synthesizer
- Pressure Reactor for Hydrogenations
- SciFinder and Reaxys
- Fire Fighting Equipment
- Preparative HPLC Purification (Water, Agilent, Shimadzu)

- HPLC
- UPLC-MS
- NMR
- Mass Spectrophotometer
- GC with Head Space
- IR Spectrophotometer
- TGA
- ICP-MS/ICP-OES
- Stability Chambers

120,000+ sq. ft.
of Landscape

350+ Employees
175+ R&D Scientist
80 + Analytical Team

Operating in
90+ Countries
Worldwide
