About Us

At Pharmaffiliates Private Ltd., we bring science and precision together to support global pharmaceutical innovation. Established in 2001 and headquartered in Haryana, India, we specialize in **high-purity reference standards, Custom synthesis, CRDMO services & Analytical Research Services**

With presence in over 90 countries, we serve as trusted partners to the pharmaceutical and biotech industries backed by state-of-the-art R&D facilities and a team of accomplished scientists. Our comprehensive range of impurity standards and tailor-made compounds supports every stage of drug development from initial discovery through to regulatory compliance.

Pharmaffiliates - Redefining Reliability, Research, and Results

Why Choose Us?

- Extensive Product Catalog
- Global Reach in 90+ countries
- Global Quality Standards
- State-of-the-Art R&D
- Customized pack sizes
- Comprehensive research solutions, all in one place

Our Mission

To be a global leader in the pharmaceutical sector by fostering innovation, ethical practices and improving healthcare accessibility.

Our Vision

To provide innovative, reliable and high-quality solutions to the pharmaceutical and healthcare industries, ensuring customer satisfaction and regulatory compliance.

www.pharmaffiliates.com

Pharmaceutical Standards

Impurities & Metabolites
Building Blocks
Certified Reference Materials
Traceable Working Standards
Nitrosamines
Peptides
Stable Isotopes/Deuterium Compounds
Controlled Substances

Non Pharmaceutical Standards

Pesticide Standards
Environmental Standards
Food & Beverage Standards
Phytochemical Standards
Petrochemical Standards
NMR Standards
GC Standards & HPLC columns

Analytical Capabilities

CMC Analytical Services
Method Development
Method Transfer & Verification
Method Validation
Impurity Profiling
Stability Studies
Finished Product Testing
Elemental Impurities
Forced Degradation Studies
Structure Identification
Compendial Testing
Isolation, Identification & Characterisation of unknown impurities

CRDMO

Discovery Chemistry Support
Route Scouting & Design / Process Development
Custom Synthesis & Manufacturing

End-to-End Pharmaceutical Services

Discovery

Expertise in PROTACs, scaffolds, nucleotides, carbohydrates, steroids, alkaloids, fluorescent labels, peptides & stable isotopes.

Development

Route design, process R&D, analytical method development, scale-up, stability studies & deuterium analogues.

Manufacturing

Gram to kilogram synthesis (Non-GMP), small-scale API/intermediate supply & tech transfer.
